Subject: ENTACT - Remedial Construction (Gold King Mine Spill)

Hi Gina,

I reached out to you regarding the Gold King Mine Site Cleanup, but was unsuccessful. ENTACT is a self-implementing remedial construction contractor. We have done several projects in Colorado. Some of our relevant skills sets include; sediment removal, water management and diversion, water treatment, and restoration. We have personnel and equipment ready to mobilize in the area, as well as a Conifer, Co office. We would like to be a resource for you.

Any direction or incite that you can provide on how we might help would be appreciated. I look forward to hearing from you.

Sincerely,

John Bowsher
